Reporting Sexual Misconduct

Title IX of the Education Amendments of 1972, and its implementing regulations, prohibit discrimination on the basis of sex in education programs or activities at higher education institutions receiving federal financial assistance. Title IX, therefore, protects all students from sexual violence/misconduct, regardless of race, national origin, disability, part-time/full-time status, sexual orientation or gender identity. Anyone who has experienced, witnessed or knows about sexual violence/misconduct is encouraged to seek help and report the incident as soon as possible.

The School of Nursing will ensure that the victim's personally identifying information will not be included in any public record keeping. Internal complaints should be made to the School of Nursing's Title IX Coordinator, Monica Hare (mhare@hnmcsn.org)

The Title IX coordinator administers the complaint investigation and monitors the disposition of complaints. Complaints against individuals who are not students should also be made to the Title IX coordinator, but will be subject to other applicable procedures including staff disciplinary and internal complaint procedures. The

Medical Center will conduct a prompt, thorough investigation into a report of sexual misconduct.

The procedures set forth below afford a prompt response to reports of sexual misconduct, maintain confidentiality and fairness consistent with applicable legal requirements, and impose appropriate sanctions on violators of this Policy. The Title IX Coordinator conducts thorough and impartial investigations into the facts of a case including interviewing the complainant, respondent, witnesses or others who may have relevant information, and collecting any other evidence deemed relevant to a case.

Definitions of Sexual Misconduct:

DATING VIOLENCE:

Threatened or actual physical or sexual violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim; and (b) where the existence of such a relationship will be determined based on a consideration of the following factors: (i) the length of the relationship; (ii) the type of relationship; and (iii) the frequency of interaction between the persons involved in the relationship. SEXUAL ASSAULT: Often referred to as rape, is legally defined differently in each state.

New Jersey, the law defines sexual assault as "the penetration, no matter how slight, in which physical force or coercion is used or in which the victim is physically or mentally incapacitated" For the full definition of sexual assault please refer to N.J.S.A. Sec. 2C:14-1.

The law in New Jersey, which is gender neutral, does not specify male or female, but uses the words "actor" and "victim" to describe the persons involved.

- Non-Consensual Sexual Contact (or attempts to commit) defined as any intentional sexual touching with any object(s) or body part that is without consent and/or by force. Sexual contact is defined as kissing or touching others intimate parts. Intimate parts may include, but are not limited to, a person's groin, buttocks, mouth or breasts.

A person must be 16 years of age to legally consent to sexual activity. A person cannot give consent to sexual activity with someone who has "the duty to care" for them unless they are over the age of 18. Individuals that fall into "the duty to care" category would include parents or guardians, and those in any type of formal Supervisory role. If individuals are at least 13 years old, but less than 16 years old they can legally consent to sexual activity with a partner who is not more than 4 years older than themselves. Sexual harassment also may include inappropriate touching, suggestive comments, and public display of pornographic or suggestive calendars, posters, or signs where such images are not connected to any legitimate academic or workplace purpose. Sexual Harassment also exists when: (1) submission to conduct is made as express or implicit term or condition of an individual's employment, performance, appraisal, or evaluation of academic performance; or (2) un-lawful conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, humiliating, or offensive working or learning environment.

- This act shall not apply to conduct which occurs during organized group picketing.

Right to Pursue Criminal Charges

After receiving a report, the Title IX Coordinator will inform individuals of their right to file an incident report with law enforcement. Although the Medical Center strongly encourages all members of its community to report violations of

this Policy to law enforcement, it is the victim's choice whether to make such a report and victims have the right to decline involvement with the police.

The Medical Center's Title IX Coordinator (or designee) will assist any victim with notifying local police or other law enforcement authorities, if he/she so desires.

A complainant may choose NOT to have law enforcement contacted and no report filed BUT still may have forensic evidence collected. (Note: The Complainant later may choose to file a police report and cooperate with a criminal investigation.) Victims of sexual assault are encouraged to request and cooperate fully with an investigation so the possibility of filing criminal charges remains an option, if they later chose to do so.

There is no statute of limitations on reporting a sexual assault to the police department. A survivor can make a report at any time. The NJ State Police may be contacted for additional information concerning sexual assault reports.

If a survivor does not want to make a report to police, he/she may seek civil remedies, including the filing of an application for a restraining order. For additional information about civil remedies, the survivor should contact his/her own legal counsel.

A complainant may file a police incident report and ask that the investigation and charges be pursued immediately. While the prosecuting attorney is still the decision-maker in whether the perpetrator is charged criminally, the complainant can cooperate and provide as much timely information as may be possible.

Preserving Evidence

It is important that victims take steps to preserve and collect evidence; doing so preserves the full range of options available, be it through the university's administrative complaint procedures or criminal prosecution. To preserve evidence:

1. do not wash your face or hands
2. do not shower or bathe
3. do not brush your teeth
4. do not change clothes or straighten up the area where the assault took place
5. do not dispose of clothes or other items that were present during the assault, or use the restroom

6. seek a medical exam immediately

If the victim has already cleaned up from the assault, he/she can still report the crime, as well as seek medical or counseling treatment. The victim may contact the police, consult with the campus Title IX Coordinator, or a local sexual assault victim resource center.
